

# RADIGREEN® MFL PE PAT

RADIGREEN® MFL PE range of products presents RADIGREEN® MFL PE PAT, a new yarn specifically developed for sports fields meant for extensive use in communities and schools. Thanks to its rounded and smooth shape, RADIGREEN® MFL PE PAT assures an unmatched performance in terms of wearing resistance (more than 40,000 Lisport cycles).

A successful mix between chemical formulation and design, RADIGREEN® MFL PE PAT remains perfectly undamaged even after more than 40,000 Lisport cycles.

RADIGREEN® MFL PE is the result of our long experience in yarns for sports applications and the cooperation between raw materials producers and RADIGREEN® R&D team.

To reach a superior wearing resistance without losing in softness and resilience technical properties, RADIGREEN® MFL PE PAT is made of a special mix of polyethylene resins, duly selected and conveniently mixed in order to empower the resistance of the yarn along the full width of the blade.

SHAPED TO WIN

RADIGREEN® MFL PE PAT

RADIGREEN® MFL PE PAT  
DOPO 40.200 CICLI LISPORT

## TECHNICAL DATA

RAW MATERIAL	POLYETHYLENE
DTEX (SINGLE PLY)	1,500 (8 PLIES) -2,000 (6 PLIES)
THICKNESS	220 Micron -260 Micron
WIDTH	1.2 mm
AVAILABLE COLORS	Football Green (FG) + Match Green (MA)

## ADVANTEGES

1. UNMATCHED WEARING RESISTANCE (MORE THAN 40,000 LISPORT CYCLES)
2. GREAT UV STABILITY
3. PERFECT MIX BETWEEN SOFTNESS AND RESILIENCE

## CERTIFICATIONS

### CERTIFICATION OF NON-TOXICITY

RADIGREEN®MFL PE PAT yarns are lead-free and phthalates-free

*(CPSC-CH-1002-08 US Consumer Product Safety Commission, Total lead,  
and EN 14372 Plastic materials, Determination of plasticizers)*
